

Sea of Change is a story about freedom through weightlessness.

Paralyzed at 12, now 27, Cody Unser, of the Unser Racing Family, leads 9 veterans who are also paralyzed to a reef 60 feet below the surface of the sea where they travel with no worry of curbs or steps. Cody's dream and pioneer spirit led to this amazing experiment chronicled by Johns Hopkins doctors which may change the lives of anyone with paralysis.

Produced By:

Christopher Productions, LLC in association with
The Cody Unser First Step Foundation (CUFSF)

Narrated By: Montel Williams, Veteran

With Support From:
